

12-Step Meetings in Synagogues

Members of our community are often interested in attending support groups held in synagogues. Below is a list of 12-Step and chemical dependency support groups offered in Jewish settings of which we are currently aware. Please call ahead to make sure that the group is running and whether it is an open or closed meeting (if it is a 12-Step group). Most 12-Step meetings are closed unless designated otherwise. Open meetings are meetings where anyone interested in learning more about the 12-Step program are welcome. Closed meetings are only for those who are in Recovery or have the desire to stop drinking and/or using other drugs.
